Re: Send out Abandonment Notice for 10/009,004

We sent out a 916 back in August of 2002. No sequence listing and no CRF. They responded (late) in September 2002, and the CRF & letter were put in the file in 50C0. They called the other day, asking what was going on. I got the file and took the CRF to STIC for processing. The CRF is still bad (unreadable) and I have the STIC report in the file. The case is abandoned for failure to properly respond to the DO/EO 905 sent 26 February 2002.

Best regards

Paul Bell, PCT Special Programs Examiner 308-3543
